Surat Thani

Surat Thani is the gateway to the deep South. Alongside of Hatyai and Phuket, Surat is the third largest city. It is a blend of Thai Buddhist, Chinese, and Malay Islamic people. It is also the home of Koh Samui, one of the top tourist destinations next to Phuket.

WHY SURAT THANI?

Unreached

Despite the gospel being shared for over 200 years Thailand is only reached 0.65% (Evangelical) that's less than one percent. The least reached regions being the Northeast and South. The Northeast have much more missionaries (local and international) though than even the South.

Called

As my relationship with God grew and I had more experience in the mission field, I knew my calling was to the unreached, so I knew I needed to go South, but not immediately, I did a frontier mission training for pioneering ministry in a Buddhist context (SOFM) and a year long Bible school with Bible teaching internship (SBS). Afterwards I knew it was time.

02

Our Team. Working across many different churches and organizations can be hard but we are family in Christ and have the same goals.

03

Our future. YWAM Surat, center for ministry team members and current team who want to study DTS. UDTs in the future?

OUR FUTURE IN SURAT

Ministry Center

We are hoping to raise funding to rent or build a discipleship center near the universities in order to have a safe place for our students to gather for small groups, activities, trainings, and counseling.

Teams

Each year we are receiving more and more teams and hope to continue to do so. We also hope to have a space at the discipleship center for them to stay which would be closer to our students.

Language Center or Teacher

One of the ways we do evangelism in the university is through language tutoring. If we could have regular classrooms at our discipleship center it would be much more stable and convenient and has potential for a business as mission ministry.

DTS or Bible School

We would love to plant a discipleship training school and/Bible school here in the south. We used to have one in a nearby province but was closed down prior to Covid.
