

Dear Friends,

We give thanks for you and for your churches that raise up this ministry, pray for us and also provide donations for our programs. Many of you made donations in recent months and we feel such gratitude.

In the last months we have had different activities that we would like to share with all of you.

During July we finished our regional health meetings – basically continuing education for health promoters. In the 7 meetings in different geographic areas, nearly 80 women attended and learned about malnutrition.

In our quieter months, our staff takes advantage of the opportunity to take some refresher courses. In August some of our staff took courses on baking, electricity, health care for the elderly and English.

In the month of September and October, Betzy and Panchita, our Health Program directors, have given two workshops on “Care of the Elderly and Disabled.” The women have learned the correct way to take care of an elderly or disabled person, as well as how to take their blood pressure, blood

sugar and many other very important things. The September workshop was in the community of Ixtepec [Indigenous and very poor] and the October workshop was in the community of Tepeaca, Puebla.

From October 6th to 12th our Tree of Life Center hosted the Pennsylvania AWARE [Alternative Work Study and Reality Experience] mission team. They worked on different projects and learned more about Give Ye Them To Eat Programs as well as getting to know

Mexicans like our staff. They also did a lot of educational tourism about the history of colonialism in the city of Puebla and the history of the many indigenous groups. They also visited the famous Cholula pyramid which is the biggest in the world in surface area. This group was led by our friend of 25 years, Marian Hartman who has brought groups at least 50 times. She is arriving soon with another team.

During these months we also received groups from different schools near Tlancualpicán to have one-day workshops at the “Tree of Life” Center, learning a little bit about all we do.

Many thanks for reading this newsletter, praying for us, sharing with others and for sharing your gifts. In God’s amazing love,

*Catalino, Clara and all the GYTTE Staff.*
